Residential on 0.91 Acres

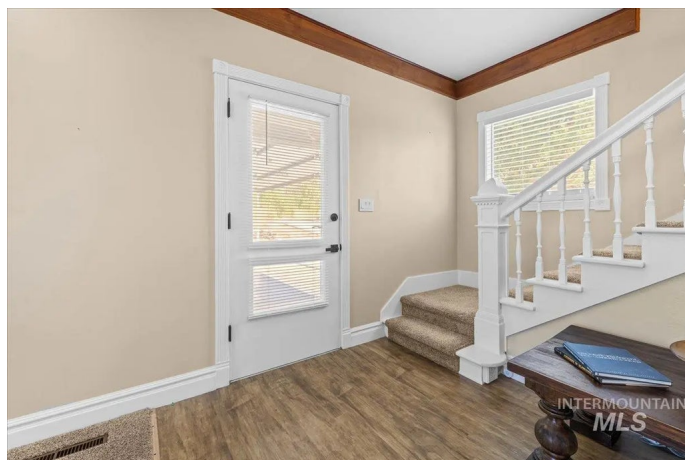

Seaman Sub, Boise, ID

This original farmhouse built in 1910 on nearly one acre, has been renovated and has new HVAC and updated wiring including a whole house surge protector, a new kitchen, new windows, a solar attic fan, skylights and a new Primary Suite with its own water heater. There is an oversized 2-car garage, attached, with ceiling fan. Outside, it has been professionally landscaped, with low voltage lighting and three Tuff Sheds, one of which could be a nice shop, all with electricity, a firepit and terraced decks of composite decking. This home has the charm of years gone by, with all of the modern conveniences, including an induction range with a convection oven and an air fry feature. The kitchen, with its quartz countertops, tile backsplash and bright eating area opens onto a balcony with an extendable awning and nice seating, perfect for a morning beverage and breakfast. For the gardener in you, there are raspberries, grapes, an apple tree, seven garden boxes and a terraced garden. It's an amazing home!
